The Natural Vet's Guide to Preventing and Treating Cancer in Dogs D.V.M. Shawn Messonnier

In this easy-to-use guide, Dr. Shawn Messonnier offers the latest research on both treating new diagnoses of cancer and preventing the disease before it takes the life of a beloved family pet. He details a program that includes complementary therapies such as antioxidants, herbal preparations, homeopathic remedies, raw food, glandular supplements, and acupuncture. He stresses that while no one therapy is right for every pet, boosting the immune system is an excellent complement to conventional therapies like radiation, chemotherapy, and surgery, as well as an important preventive program for healthy dogs. Presenting the reader with clinical studies supporting these treatments, or with his own extensive clinical experience where studies are not yet available, Dr. Messonnier gives readers an objective and up-to-date survey, complete with the pros and cons of each treatment, of all the integrative options available for treating and preventing cancer in dogs.

Patrick Garcia:

As a student exactly feel bored to reading. If their teacher expected them to go to the library in order to make summary for some reserve, they are complained. Just small students that has reading's heart and soul or real their interest. They just do what the educator want, like asked to the library. They go to at this time there but nothing reading critically. Any students feel that reading is not important, boring and also can't see colorful pics on there. Yeah, it is being complicated. Book is very important for you personally. As we know that on this era, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's

country. So , this The Natural Vet's Guide to Preventing and Treating Cancer in Dogs can make you feel more interested to read.
