Sustaining Indigenous Knowledge

Sustaining Indigenous Knowledge

The contributions to this volume present ways in which indigenous knowledge in minority communities is sustained and how attempts are made to safeguard endangered languages. Two recent seminars at the Foundation for Siberian Cultures were devoted to the discussion of community-based pedagogical initiatives in Siberia, with comparative examples from other parts of the world. In this volume, scholars with backgrounds in anthropology, linguistics and in the use of new media share their experiences of how to design adequate learning tools in collaboration with their native colleagues. In their articles they discuss previous shortcomings and limitations, with the aim of exploring future directions for maintaining cultural diversities, not only in Siberia, but also among many other peoples of the world.
