Microdevelopment: Transition Processes in Development and Learning (Cambridge Studies in Cognitive and Perceptual Development)

Microdevelopment is the process of change in abilities, knowledge and understanding during short time-spans. This book presents a new process-oriented view of development and learning based on recent innovations in psychological research. Instead of characterizing abilities at different ages, researchers investigate processes of development and learning that evolve through time to determine progressive changes. With contributions from the foremost researchers in the field, this study will be essential reading for all interested in cognitive and developmental science.
